SUMMARY

Software developer with hands-on experience in building full-stack applications using Java, Python, and SQL. Strong in backend development, database design, and object-oriented programming, with practical experience in MVC architecture and web application development. Developed projects across web , Currently enhancing problem-solving skills and learning RESTful APIs and modern backend frameworks.

INTERNSHIP EXPERIENCE

Dhee Coding Lab

Aug 2026 - Present

Java Full-Stack

- Developed full-stack web applications using Java Servlets, JSP, and MySQL, implementing backend logic with JDBC and DAO design patterns.
- Designed and integrated user authentication and session management for secure web applications.
- Built responsive user interfaces using HTML, CSS, and Bootstrap.
- Worked with database-driven applications, performing CRUD operations and optimizing SQL queries.

Association of Computer Science and Engg. Educatee -Committee Member

Mangaluru, India

- Supported the planning and execution of technical events and student activities, strengthening coordination, teamwork, and communication skills.

EDUCATION

Srinivas Institute of Technology

Mangaluru, India

B.E. in Computer Science and Engineering

2022 – 2026

CGPA: 8.02/10

Shree Gurudeva PU College, Belthangady

Mangaluru, India

PCMB

2020 – 2022

Percentage: 76.83%

Govt. High School , Guruvayanakere

Mangaluru, India

10th

2017 – 2020

Percentage: 87.52%

PROJECTS

Student Management Portal

- Designed and developed a full-stack web application to manage student records using Java Servlets, JSP, and MySQL following MVC architecture.
- Implemented secure authentication and session management to control access to user dashboards.
- Built a dynamic user interface and integrated CRUD operations for efficient data handling.
- Used the DAO design pattern and Prepared Statements to ensure secure database interaction and prevent SQL injection.

AI Chatbot

- Developed an AI chatbot using Retrieval-Augmented Generation (RAG) to generate context-aware responses to user queries.
- Integrated FAISS for efficient document retrieval and Google Gemma (LLM) for response generation.
- Built an interactive interface using Streamlit for real-time user interaction.
- Designed the system to retrieve relevant context and improve response accuracy.

SKILLS

- **Programming Languages:** Java, Python, SQL, JavaScript
- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap, JSP
- **Backend Development:** Servlets, JDBC
- **Tools and Technologies:** Apache Tomcat, Streamlit, Generative AI (RAG), FAISS, OpenAI API (basic)
- **Databases:** MySQL
- **Core Concepts:** OOP, DBMS, MVC Architecture, RESTful API fundamentals
- **Soft Skills:** Leadership, Problem-Solving, Communication, Adaptability, Teamwork, Attention to Detail

CERTIFICATIONS

- Infosys Springboard – Programming in Python Beginner
- Cisco Networking Academy – JavaScript Essentials 1
- IBM - DevOps Fundamentals

LANGUAGES

- English
- Kannada
- Hindi

ACTIVITIES

- Participated in Srinathon 2.0, a 24-hour hackathon at Srinivas Institute of Technology, 2025, demonstrating teamwork, problem-solving, and technical skills.
- Technical Workshop Participant – Participated in technical workshops and gained hands-on exposure to emerging technologies.
