SUMMARY

Computer Science Engineering graduate with strong knowledge of Core Java, J2EE, HTML, CSS, and MySQL. Skilled in object-oriented programming, SQL, web development, and database management. Familiar with Git and GitHub for version control and collaborative software development. Seeking an entry-level software development role to apply technical skills and grow professionally.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering September 2022 - May 2026
Srinivas Institute Of Technology, Mangalore
CGPA: 8.02

INTERNSHIP

MindMatrix

- Developed Android applications using Kotlin, Android Studio, and Jetpack components with responsive UI features. Integrated Generative AI, AI assistant capabilities, and REST APIs to enhance application functionality. Implemented Room Database for efficient local data storage and management. Gained hands-on experience in Android application development, API integration, AI features, and user-friendly UI design.

TRAINING

Dhee Coding Lab 2026-Present
Java Full Stack Development Training

- Developed full-stack web applications using Java Servlets, JSP, and MySQL, implementing backend logic with JDBC and DAO design patterns. Designed and integrated user authentication and session management for secure web applications. Built responsive user interfaces using HTML, CSS, and Bootstrap. Worked with database-driven applications, performing CRUD operations and optimizing SQL queries.

SKILLS

programming : Core Java,SQL

Web Technologies : HTML5,CSS3

Backend Development : Servlets,JDBC

Tools and Technologies : Git,Git Hub

Databases : MySQL

Core Concepts : Object Oriented Programming,Exception Handling, Multi Threading, Collection, sub-query, Joins, window functions,View, Trigger, procedure, CTE's Index.

PROJECTS

Admit Genie:AI Powered Admission Assistant Chatbot

- Developed Admit Genie, an AI-powered admission assistant chatbot using Python and NLP to assist students with admission-related queries. Implemented intelligent responses to provide information on eligibility, deadlines, courses, and application procedures. Integrated APIs to retrieve and provide relevant admission information efficiently. Designed the chatbot to simplify the admission process and provide quick, user-friendly assistance to applicants.

Student Management project

- Developed a full-stack Student Management System using Java, JDBC, Servlets, and JSP with separate Student and Admin modules. Implemented student features to view profiles and securely update account information. Developed an admin module to view all registered students and delete specific student records. Integrated JDBC with MySQL for efficient database connectivity and management of student data.

CERTIFICATION

- Cisco Networking Academy-JavaScript Essentials 1.
- Infosys Springboard-Programming Python.
- IBM-Devops Fundamentals.

LANGUAGES

English, Kannada, Hindi

ACTIVITIES

Published a research paper titled “Admit Genie” in the International Journal of Innovative Research in Technology (IJIRT), presented at the International Conference on Recent Innovation in Computer Science, May 2026.

ASCEE Committee Member, involved in organizing and participating in college programs.

Participated in Srinathon 2.0, a 24-hour hackathon, 2025.
